PANTS

CCW Breakaway Pants

Introducing a new method for concealed carry: normal-looking business and casual clothing. No un-tucked shirt, vest, jacket or extra clothing needed to cover your weapon. They allow you to be covert without the "tactical-operator" look, and provide a simpler-than-holster-draw (one handed, not two). The pant has an enlarged "breakaway" pocket opening, so you can stand, fight, run, jump, kneel, squat or sit comfortably. See more at www.ccwbreakaways.com.

QUICK STRIPS

Tuff Products

From the .22 Rim Fire to the .500 Linebaugh, Tuff has your QuickStrip. They are great for flat unobtrusive carry and tactical reloads and come in a 10 round .22 RimFire, 6 or 8 round .32/.327, 6 or 8 round .38/.357, 6 round 44,.45,.460, .41 Magnum & .410 Shotgun, 6 round .475 Linebaugh, .480 Ruger & .500 S&W and the 5 round .500 Linebaugh. Check them out at www.tuffproducts.com.

TAC-LATCH ADVANCED AIR CHARGING HANDLE

TechWearUSA

Whether it's for competition, law enforcement or tactical usage, the extended Tac-Latch has been field tested by industry experts to ensure a quick purchase for regular or emergency operation. Tac-Latch engages the left-side latch as the hand grabs the charging handle, offering a fluid-motion, one-step pull design. It features a comfortable groove that fits the natural grip. Tac-Latch comes in five colors: gold, titanium silver, red, black and olive/gray. Log onto www.techwearusa.com to see more.

CVDR2914 DOUBLE RIFLE CASE

NcSTAR

The Double Rifle case can withstand the harshest environments, and will accommodate two standard-sized rifles. It features four straps to secure from movement and two external zippered compartments to hold shooting accessories or other smaller firearms. There are reinforced wrap-around carrying handles and heavy-duty double zippers used throughout. The case is available in four colors. Check it out at www.ncstar.com.

COUNTDOWN MAGAZINE

EMA Tactical

This unique magazine provides a visual indicator showing the amount of remaining rounds in the magazine. It features a window in the back of the magazine, so the operator can instantly see how many rounds remain without moving his head from the cheekpiece. The second visual indicator on the bottom is color coded for easier viewing. Visit www.ematactical.com to learn more.

SPARC RED DOT SIGHT

Vortex Optics

The new, compact, daylight-bright SPARC (Speed Point Aiming for Rapid Combat) is packed with performance features and lend itself to a wide variety of firearm platforms — AR-15s, shotguns and pistols. The modular three-piece base offers four separate mounting heights for user- and weapon-specific customization. It includes digital rear facing and side controls for power on/off, dot brightness and night vision mode. For more info go to www.vortexoptics.com.

SHOOTING SPORTS

POLO

EOTAC

The Shooting Sports Polo is designed to work equally well on the range or the office. One of the key features of this polo shirt is the wide range of motion the design allows. The lightweight polyester fabric is perfect for scorching hot days, wicking moisture away. The pocket features a hidden snap-closure and hanging-loop for your sunglasses. The extended shirrtail keeps the polo in place when tucked. To learn more, visit www.eotac.com.
