

**DDM4V7 PRO WITH
RATTLECAN FINISH**
DANIEL DEFENSE INC.

Daniel Defense has just released the *DDM4V7 Pro with Rattlecan Finish*. The finish — a mixture of Daniel Defense's proprietary Cerakote colors "Daniel Defense Tornado" and "Mil Spec+" — is like a snakeskin pattern. Designed and built for multi-gun competitors, the DDM4V7 Pro offers superior ergonomics and cooling as well as plenty of space for optics. The new finish (also offered for the DDM4V7 and DDM4V7 LW) is another reason for gun competitors to bring the DDM4V7 Pro to the range. For more info: (912) 851-3225, www.gunsmagazine.com/company/daniel-defense-inc

BLACK CARGO
CCW BREAKAWAYS

CCW Breakaways has added *Black Cargo* to their concealed-carry long pants and shorts. The patented tactical pants have built-in holster pockets and enlargeable breakaway openings giving the wearer an advantage in arms' length street violence. With these pants, the draw is faster than from a holster. They also offer deeper concealment and a more comfortable carry. CCW Breakaways' Khakis and Cargos have a classic comfort fit and are constructed to conceal most firearm sizes. For more info: (717) 774-2152, www.gunsmagazine.com/company/ccw-breakaways

SMART ABDO
EAA CORP

The *SMART ABDO*, now available from EAA, brings concealed carry into the "smart" age. Concealable as well as accessible, the SMART ABDO looks like a cell phone that can discreetly hang from a belt or be kept in a purse. Features usually found in a cell phone or laptop have been integrated into the portable concealed carry firearm safe. It offers remote locking/unlocking, GPS location, remote arming/disarming and an alarm system that automatically locks the device after unauthorized removal from the belt. For more info: (321) 639-4842, www.gunsmagazine.com/company/european-american-armory-corp

ATACR 1-8X24 F1
NIGHTFORCE OPTICS INC.

The *ATACR 1-8x24 F1* is a low-variable riflescope featuring ED glass and daylight illumination, an intelligent reticle and low-profile adjustments. At just over 10" long and weighing 21 oz., it delivers a field of view at 1x equivalent to open sights. Its center red dot (visible in daylight) allows for rapid engagement like a red-dot sight. The intelligent FC-DM first focal plane reticle provides precise hold and hold-off points. For more info: (208) 476-9814, www.gunsmagazine.com/company/nightforce-optics
